Intellectual Property

Company retains all right, title and interest in all of Company's intellectual property, including, without limitation, inventions, ideas, concepts, code, discoveries, processes, marks, methods, software, techniques, information and data, whether or not patentable, copyrightable or

protectable in trademark, and any trademarks, copyright or patents based thereon. Buyer may not use any of Company's intellectual property for any reason without Company's prior written consent, except as otherwise provided under the License Agreement.

- c) Digital Currency, LLC bears no liability or responsibility for any tax liabilities to Buyer.

Buyer Status

Buyer is not subject to any of the disqualifying events listed in Rule 506(d)(1) of Regulation D under the Securities Act of 1933 (a "Buyer Event"), and there is no proceeding or investigation pending or, to the knowledge of Buyer, threatened by any governmental authority, that would reasonably be expected to become the basis for a Buyer Event. If Buyer is a legal entity, Buyer makes the same representations with respect to its directors (or equivalent) and senior executive officers, and its affiliates and their respective directors (or equivalent) and senior executive officers.

Buyer Knowledge and Risks of Project

Buyer has the ability to read and understand this document and the terms and conditions in its entirety also having sufficient knowledge and experience in business and financial matters, including a reasonable understanding of blockchain and or ERC20 tokens and other digital assets, smart contracts, storage mechanisms (such as digital or token wallets), blockchain-based systems and blockchain technology, to be able to evaluate the risks of Buyer's purchase of G-coin Tokens, including but not limited to, the matters set forth in this Agreement, and fully understands the risks thereof, including loss of all amounts paid, loss of tokens, and liability to Company and others for its acts and omissions, including with limitation those constituting breach of this Agreement, negligence, fraud or willful misconduct. Buyer has obtained sufficient information in order to make an informed decision to purchase G-coin Tokens.

Funds, Payments

The funds, including any fiat, virtual currency or cryptocurrency, Buyer uses to purchase Tokens are not obtained from or related to any unlawful activities, including but not limited to money laundering or any terrorist financing or activities, and Buyer will not use the G-coin Tokens to finance, engage in, or otherwise support any unlawful activities. We fully abide by the KYC "KNOW YOUR CUSTOMER" policy and as such require everyone participating in the G-coin token sale to register and submit required documents as necessary.

Regulatory Compliance

Sanctions Compliance: Neither Buyer, nor any person having a direct or indirect beneficial interest in Buyer or G-coin Tokens being acquired by Buyer, or any person for whom Buyer is acting as agent or representative in connection with Tokens, is the subject of sanctions administered or enforced by the USA or any country or government (collectively, "Sanctions") or is organized or resident in a country or territory that is the subject of Government imposed Sanctions.

Platform: Buyer understands and agrees that Tokens are designed only to be utilized on the Coingorilla and Digital Currency, LLC platforms and exchanges and pursuant to the License Agreement.

Purchase Price Risk

The distribution of G-coin Tokens will occur at the end of the Token Distribution. There are no guarantees as to the price of Tokens purchased by Buyer. Digital Currency, LLC reserves the right to change the duration of the Token Distribution for any reason without prior notice, including, without limitation, bugs in the Distribution Contract or the unavailability of the Website or other unforeseen technical or security issues. The initial valuation of the G-coin token is based on multiple factors as outlined in the "White paper".

Token Security

Tokens may be subject to hacking, errors and/or theft. Hackers or other malicious persons, entities and malicious software may attempt to interfere with the Distribution Contract or the Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, and other unforeseen or unknown attacks. Furthermore, because the Ethereum platform rests on open source software and Tokens are based on open source software, there is the risk that Ethereum smart contracts may contain intentional or unintentional bugs or weaknesses that may negatively affect the Tokens or result in the loss of Buyer's Tokens, the loss of Buyer's ability to access or control Buyer's Tokens or the loss of ETH in Buyer's account. In the event of such software bug or weakness, there may be no way to retrieve lost ETH or G-coin tokens; and holders of Tokens are not guaranteed any refund or compensation.

Reliance on Third-Parties

Digital Currency, LLC and the Coingorilla platform will rely, in whole or partly, on third parties to implement and to continue to develop the supply, platform, functionality and usability. There is no assurance or guarantee that those third parties will complete their work, carry out their obligations, or complete Company releases, updates and advances on time.

Exchange & Counterparty Risks

If Buyer sends ETH to the Distribution Contract from an exchange or an account that Buyer does not control, pursuant to the Distribution Contract, Tokens will be allocated to the account that has sent ETH; therefore, Buyer may never receive or be able to recover Buyer's Tokens.

Furthermore, if Buyer chooses to maintain or hold Tokens through a cryptocurrency exchange other than www.coingorilla.com, Buyer's Tokens may be lost or stolen. By using the Distribution Contract and/or by purchasing G-coin Tokens, Buyer acknowledges and agrees that Buyer sends ETH to the Distribution Contract through an exchange account and/or holds Tokens on a cryptocurrency exchange other than www.coingorilla.com at Buyer's own risk and discretion.

Uncertain Regulatory Framework

The regulatory status of digital tokens, coins, digital assets and blockchain technology is unclear or unregulated in many jurisdictions. It is extremely difficult to predict how or whether which or what governments will regulate such technologies. It is also difficult to predict how or whether any government may make changes to existing laws, regulations and/or rules that will affect digital tokens, digital assets, blockchain technology and its applications. Such changes could negatively impact G-coin Tokens and crypto assets in general in various ways, including, for example, through a determination that Tokens are regulated financial instruments that require registration. Company may cease the distribution of G-coin Tokens, the licensing of use or cease operations in jurisdictions that governmental actions make it unlawful or financially not feasible to conduct business.

AUDIT OF THE SMART CONTRACT SYSTEM

Digital Currency, LLC shall exercise reasonable endeavors to have the Smart Contract System audited and approved by technical experts with regard to both accuracy and security of the underlying code.

Smart contract technology is still in an early stage of development and its application is currently of an experimental nature, which carries significant operational, technological, financial, regulatory and reputational risks. Accordingly, while any audit conducted shall raise the level of security and accuracy of the Smart Contract System, you acknowledge, understand and accept that the audit does not amount to any form of warranty, representation or assurance (in each case whether express or implied) that the Smart Contract System and G-coins are fit for a particular purpose or that they are free from any defects, weaknesses, vulnerabilities, viruses or bugs which could cause, inter alia, the complete G-coins.
